

Obituary.

MR. JOHN MCCREADIE PASSES TO GREAT BEYOND

Death claimed another old-timer on Tuesday, August 29th, in the person of the late John McCreddie of the Orbindale district. Mr. McCreddie had been in poor health for several months, having spent the past three months in the Mannville Hospital. As he was not improving he decided to come home and on Saturday, August 26th, came to his daughter's, Mrs. Earle Prior, where he has made his home since the death of his beloved wife on November 30th, 1938. He was seemingly no worse for the trip home however. On Tuesday morning he decided to rest in. Later when Mrs. Prior went to his room he had passed quietly away.

The late John McCreddie was born in Scotland, and on April 14, 1909, he celebrated his 67th birthday. He served for seven years on the police force in Glasgow, Scotland, and did service as a soldier in the Boer War. In 1914, he, with his wife and family, came to Alberta and settled in the Orbindale district where he resided until his death. He was a good citizen and neighbor and a friend to all ever ready to do a good turn for those whom he knew.

The funeral was held from the Irma United Church where a large gathering came to pay their last respects. Rev. Longmire conducted the service. The pallbearers were Messrs. J. Marshall, Stanton Coutman, Monte New, W. Prosser, Hughie and John Muir, all friends of the deceased for many years.

He leaves to mourn his loss, Jim, Murray, and Lizzie and their families. Interment was made in the Irma Cemetery beside his wife who predeceased him four years ago.

The many beautiful floral offerings were from the following: Lizzie and Earle; Murray and Jim; Nellie and Gladys; Ronnie, Evelyn and Betty Anne; Orbindale Women's Club; Mr. and Mrs. W. H. Prior and family; Mrs. and Mr. E. J. Jones and family; Walter and Jessie Frickleton; Mr. and Mrs. R. McFarland; A. E. Peterson and family; the three Glover families; and two sprays with no name attached.

The sympathy of the whole community goes out to those who mourn. He has gone to that rest for the weary.

That home of perfect peace.

SHARON-LUTHERAN CHURCH
J. B. Stole, Pastor

College Day service at 11:30 a.m. Mr. E. M. Bergh, Camrose, will be the speaker.

W.C.T.U. Meeting.

At the W.C.T.U. meeting held last Thursday afternoon it was decided to again offer prizes for entries in the Scientific Temperance contest. The entries this year include posters from Grades III to XII inclusive, forming three classes, health books from Grades V and VI, reference books from Grades VII and VIII, essays from Grade VII, essays from Grade VIII, and from Grades IX and X, and another class of essays from Grades XI and XII. There is to be a distinction drawn this year between individual work and class room work in the health and reference books. Obedient rural schools are cordially invited to enter this contest. There was lively interest shown in the discussion of the near-at-hand Sunday School campaign. It is important to recognize that leaflets containing all the stories for each of the stories for each of the two grades into which Sunday Schools are divided for this campaign, as well as all directions needed for carrying it on, may be obtained for 30c per doz., either from W.C.T.U. Campaign Office, "Clone House, Athens, Ont., or from your national denominational headquarters.

September 19 was set for the annual meeting to which all local superintendents are to bring written reports of the work done in their respective departments during the past twelve months. In this respect it seems timely to mention that Mrs. Arnold as superintendent of travellers' aid has warmly appreciated coupons donated for this work in the past and to suggest that her autumn collection is due. The latest revised list of those acceptable for this purpose include: Royal Crown Soap Co., W. H. Malkin, Blue Ribbon, Standard Brands, Gillespie Maid, Nabob. The manufacturers of these products will pay this organization cash for their wipers and coupons to be applied on travellers' aid work.

Have you signed the Polyglot Women's Peace Petition?

For Sally Gravy—Put pieces of toasted bread into soups or gravies which are too salty, take them out and it will be found that the bread has absorbed a good portion of the salt.

Identifying sheets—If you use sheets of two different sizes one for single and one for double beds, fold sheets for double beds in a large square and those for a single bed in smaller squares. You will then have no difficulty in finding the right sheets.

Shine off Serge—The shine on the dark serge suit can be removed to a certain extent by sponging with vinegar and then pressing in the usual way.

Britain Declares War on Germany

Entire British Commonwealth of Nations Rally to Support of Motherland in Her War to Save Democracy and Freedom

Recruits Rush to Enlist—Conscription May Be Decided Thursday

Great Britain declared war against Germany at 6 A. M., Sunday, and France followed six hours later.

Australia and New Zealand also stated that they would be behind Britain in the fight for democracy, and also declared war against Germany.

Prime Minister Mackenzie King, in an Empire hook-up on Sunday, stated "that Canada was voluntary with Great Britain in their fight against aggression, and that measures were being taken to safe-guard Canadians and the defence of Canada."

A meeting of the Canadian parliament will be held on Thursday when it is anticipated the momentous decision will be made.

Locally the news was taken quite calmly. People gathered in small groups discussing the tragic events that brought another war in Europe. Many could hardly believe that the world had been plunged into another war by one man, Hitler. Ex-service men were reminded of the days of 1914-18 when they enlisted and fought in the war that was supposed to end all wars. All expressed themselves as wanting to do their bit again in any capacity that the government may require.

The report is that a recruiting officer will visit this district next week for the purpose of signing up recruits on a voluntary basis, but the report has not been confirmed as we go to press.

The Canadian Parliament meets on Thursday when it is expected a formal declaration of war will be made. Preparations for this have been going on since Sunday. Canada is united in this second great war effort in a quarter of a century.

Sinking of ships at sea, heavy bombardment of Poland and preparations for a big push on the French and German borders are under way.

Soldiers' Pay and Allowances

Canadian Soldier Receives More Today Than in 1914

OTTAWA, Sept. 2.—The pay of Canadian troops on active service is higher today than in 1914. Instead of \$1.10 a day paid during the Great War, soldiers of the non-permanent active militia now being called out on active service will receive \$1.50. This rate was announced by the defence department Friday.

This is the pay of the private soldier. If he has dependents the additional amount payable to his wife (or female relative who has been responsible for the care and management of his home prior to enlistment) is \$35 a month. For each dependent child the soldier will receive an allowance of another \$12 a month.

The dependents' allowance is contingent upon the soldier assigning \$20 a month of his own pay to his wife, or to the female relative who cared for his home.

A dependant son is eligible for the \$12 a month up to the age of 16 and a dependant daughter up to the age of 17. These limits do not apply, however, in the case of a child unable through physical or mental infirmity to provide his or her own maintenance.

On that scale the family of a private soldier, with a wife and three children would receive would receive monthly \$91. This would be made up of the \$20 which the soldier assigns from his own pay of \$1.50 a day, \$35 for his wife and \$36 for the three dependant children.

The scale of dependents' allowance for the wife varies somewhat according to rank, but the highest for any rank is \$60. There is no variation according to rank in allowance for dependant children.

Here's Lineup of European Powers Today

The belligerents: Great Britain and France, allied with Poland against Germany.

The avowed neutrals: Norway, Sweden, Denmark, Finland, The Netherlands, Belgium, Switzerland, Elze, Luxembourg, Portugal, Latvia.

The doubtful quantities: Italy bound to Germany in a military alliance, and Soviet Russia, with a non-aggression pact; Hungary, Yugoslavia, Rumania and Bulgaria considering formation of a Balkan neutrality bloc; Spain, appealing for localization of the Polish-German conflict; Greece and Turkey, considered parts of the Anglo-French front.

British War Cabinet.

Prime Minister and First Lord of the Treasury, Neville Chamberlain. Chancellor of the Exchequer, Sir John Simon.

Foreign Secretary, Viscount Halifax.

Minister for Co-ordination of Defence, Lord Chatfield.

First Lord of the Admiralty, Winston Churchill.

Secretary for War, Leslie Hore-Belisha.

Secretary for Air, Sir Kingsley Wood.

Lord Privy Seal, Sir Samuel Hoare.

Minister without portfolio, Lord Hankey.

Overseas Force From Canada is Speculation

OTTAWA, Sept. 4th.—With mobilizing of Canada's armed forces for the defence of the Dominion and the declaration by Prime Minister Mackenzie King last night that on Thursday the government will seek parliamentary authority for measures to make effective Canada's assistance to the United Kingdom, speculation was rife on whether despatch of an expeditionary force was contemplated.

Interesting Items From Kinsella

Mr. and Mrs. R. C. Miller and two sons of Los Angeles, California, are visiting Mrs. Miller's parents, Mr. and Mrs. C. F. Arkinstall.

Mr. Sanford Paulsen of Cadogan spent the week-end visiting friends at Kinsella.

Misses Isabel McKie and Violet Williamson of Edmonton spent the week-end at their homes here.

Mr. Ralph Thoresen is a patient in the Viking Hospital.

Mr. A. Oulton is visiting with Mr. and Mrs. W. L. Purvis.

Mr. Fender Smith who has been working at Athabasca and further north since spring is home again.

Mrs. Claude Wachter and Lorne who have been visiting at the Wachter home the last couple of weeks returned home on Monday.

Vera Hajek left with sister Mildred for Smith, Alberta, where she will finish her Grade Twelve.

Ludwig Jackowick left for Edmonton on Monday where he will take his Grade Twelve at Alberta College.

Miss Ruth Wachter will finish her Grade Twelve at Irma this year.

Will Carpenter is home again after spending his holidays in Ontario.

Art Scott and wife and family who have lived in town the last few months, Art driving the Burns Creamery truck, have moved back to Charlin.

Mrs. Bumpus of London, England, is visiting Mrs. J. F. Murray.

The Kinsella Ladies Aid will meet at the home of Mrs. J. F. Murray this month.

Wedding Bells

RAC-HORINEK

The marriage of Miss Christine Alice Horinek, daughter of Mr. and Mrs. Ensch Horinek of Kinsella, and Mr. Stefan Rac, son of Mr. and Mrs. Enrich Rac of North Battleford, was celebrated in St. Mary's Church, Viking, at 9:00 a.m. Saturday, Sept. 2nd, Rev. Fr. O'Neill officiating.

Mr. Rac was at one time a resident of Viking, having conducted a tailoring business. Miss Horinek is the successful proprietress of Christine's Beauty Shop, Edmonton. They will make their home in the city.

The Misses Angas Horinek and Victoria Stupka acted as bridesmaids while Messrs. Andrew Rac and Vincent Slavik were groomsmen.

After the marriage ceremony, a reception was held at the bride's home at Kinsella, where a large number of relatives and friends paid their respects to the newly married couple. We wish to add our congratulations to Mr. and Mrs. Rac, wishing them every success in the future.

Urge Conscription of Men, Wealth

CANADIAN LEGION ASKS CONSCRIPTION OF MEN, WEALTH AND MATERIAL

Edmonton, Sept. 5.—More than 1,200 Edmonton ex-servicemen Monday reaffirmed their allegiance to Canada and the British Empire.

They passed resolutions which urged the Dominion government to:

1. Conscript men, material and wealth.

2. Register all enemy aliens and intern those who may be guilty of disloyalty.

3. Make it an offense for an employer to fail to reinstate with full seniority any employee who participates in military service.

Meanwhile seven military units in Edmonton announced they would accept applications for enlistments immediately.

"Guidance or gun was the issue in the last world crisis. We must be willing to take a chance and formerly give the nation that enthusiasm that characterizes ourselves."—Dr. Paul Campbell.

"This whole Prairie Farm Rehabilitation scheme is a permanent and a good thing and it will ultimately have a splendid effect on the whole western economy."—A. H. Mitchell, M.P.

United Church Notes

Royal Canadian Pacific Engine at World's Fair

An impressive feature in the "Railroads on Parade" pageant at the New York World's Fair, Canadian Pacific Railway Locomotive 2850 is attracting marked attention. The Royal decorations it still carries recall the important part it played in the westward passage across Canada of Their Majesties King George VI and Queen Elizabeth and make it the outstanding engine on exhibit.

Locomotive 2850 impresses at our daily shows as a powerful, efficient piece of machinery. It is right around the engine

which hauled the royal train from Quebec City to Vancouver, a distance of more than 3,000 miles, the longest continuous run ever recorded by a passenger train. At the end of that run, Locomotive 2850 worked its way back to Montreal in regular duty, completing practically 6,000 miles of continuous service. The Canadian Pacific Railway announced that the entire trip had passed without engine trouble of any kind; that the locomotive was still in perfect condition and could, if necessary, be turned right around and operated back to the Pacific Coast again. It is one of 60 engines of the same series capable of a similar performance.

Four times daily during August, the cyclopaean Canadian Pacific locomotive goes on display at New York; and four times a day spectators echo the words of Her Majesty Queen Elizabeth when she inspected the locomotive during the tour: "Isn't it a lovely engine?" Standing on the engine in this picture are the "Gay Lascars of Yesterday and Today," members of the cast of the nagoon

THE CROP TESTING PLAN

Report of the Summer Work of the Crop Testing Plan
By H. G. L. STRANGE,

The prairie wheat crop shows a decided improvement in tenacity to variety as compared with last year. This is the story revealed by the analysis of some 24 thousand farmers' wheat samples made this summer by the Crop Testing Plan.

The samples were collected by elevator agents at 1,650 points in Manitoba, Saskatchewan and Alberta and were tested in groups at 101 points throughout the west. The analysis of these samples each one of which represents a farmer's field of wheat, reveals that this year not less than 38 per cent classified as A's, which means that 38 per cent of the wheat crops are true to variety to a very high standard of excellence, and consist, moreover of a recommended variety of good milling and baking value. The average of A's for the previous 8 years has only been 28 per cent.

The investigation reveals, however, that there is still room for improvement for no less than 40 per cent of the farmers are losing money by producing crops giving lower yields and lower grades than needs be, simply because these farmers are using either unsuitable or old-fashioned poor quality varieties or else mixtures of early and late varieties in the same field, these mixtures naturally, making it impossible for the farmer to harvest his crop to the best advantage. Good, therefore, as the quality of Canadian wheat may now be on world markets there is certainly a definite opportunity for further improvement as the undesirable varieties and mixtures become eliminated from western wheat crops.

Last year's results showed that 9,180 farmers were found to have poor quality money losing crops, which were classified as either C's or Mixtures. The records of the 1,655 elevator agents who do the work of the Crop Testing Plan reveal, however, that the agents were able to persuade not less than 5,610 of those who last year had C's and Mixtures, to purchase better seed and to sow this superior stock in small fields on the farms. This coming year therefore, these farmers will have sufficient good seed to sow all their fields. It is expected, then, that next year the Crop Testing Plan's analysis will show even greater improvement than has been recorded this year.

The Crop Testing Plan work this year can be considered to have attained to a high mark of success, judging by the interest taken in the work by farmers, business men, elevator agents and superintendents. The plots sown and cared for by the agents were all of a very high order of neatness and cleanliness and drew most favorable comment from the government agriculturists.

The actual work of analyzing and classifying the thousands of farmers' samples, each sample representing a field of wheat, is done by competent professional cerealists and plant breeders, whose services are kindly made available year after year to the Crop Testing Plan by the Dominion

and Provincial Departments of Agriculture, by the universities, and schools of agriculture.

These agricultural authorities at the various field days unanimously commented on the fine behaviour of the new rust resistant varieties, Apex, Thatcher, Remora and Regent. At a number of the plots still newer rust resistant varieties were shown which have recently been originated by our Canadian Rust Research Laboratory, and which new varieties are still under test. Out of this new material the government plant breeders state they hope to find an even better rust resistant variety than any now available, although those licensed and now in use are, judged by any standard, quite first class varieties.

In addition to rust resistant wheats, new and superior varieties of oats, barleys and of earlier maturing wheat still in the making and still under test by the Dominion experimental farms, the Rust Research laboratory and universities, were shown and attracted much favorable comment and interest.

The Crop Testing Plan plots include one of the newer American rust resistant wheats, Pilot. This variety, unfortunately, under our prairie conditions, developed a decidedly weak straw and so is considered unsuitable for use in Canada and, therefore, has not received a Canadian license.

Never before were quite so many farmers so keenly interested, it seems, in endeavoring to use the best varieties as recommended by the government authorities. It was very evident that farmers are now realizing that only by the use of a recommended variety and by the production of a crop of that variety in a reasonably pure state, can they hope to attain the full money returns that their work of wheat production warrants. It is evident, however, that there are thousands of farmers who can still be assisted to secure higher returns from their farming operations than they are now receiving.

AROUND THE HOUSE

Sewing Tip—Before mending with new darning wool, hold it in steam of a kettle for a few minutes and let it slowly dry. This shrinks it so it will not "pull" or pucker when the mended garment is washed.

For a Baby's Bath—A good soap substitute, if the baby has sensitive skin, is a pound of oatmeal or a quart of bran tied securely in a gauze bag and allowed to soak in the bath water.

Sweetened Coffee Pot—If the morning coffee seems to have lost its pep, perhaps the pot needs attention. Scald it at least once a week—twice is better. Purify for an hour or longer directly in the sunlight.

Use for Leftover Velvet—Cut in the form of small pads, leftover velvet may be used to brush bits of fluff from hats and dark suits.

Steam Brazil—Brazil nuts are easier to remove from the shells if they are steamed before cracking.

CHECK YOUR DRIVING AGAINST THIS CODE

Edmonton—In connection with its current safety campaign a new "safe driving code" of 10 points has been worked out by the Alberta Safety League. Motorists would do well to study this code, which has been prepared by motoring experts in the form of questions as follows:

1. Do you keep your mind on your driving, watch the movements of the other cars, and try to anticipate what they will do?
2. Do you keep in the line of traffic, especially when nearing the top of a hill or a sharp turn?
3. Do you comply with traffic regulations, signals and signs, and slow down at crossings and dangerous intersections?
4. Do you know the feeling of having your car brakes under control, by having it, brakes especially, inspected regularly?
5. Do you watch for pedestrians, especially children?
6. Do you signal to the car behind you when you intend to change your course?
7. Do you maintain a speed satisfactory to motorists both ahead and behind you?
8. Do you give the other motorists the right of way when there is any question about it?
9. Do you dip your lights when meeting another car?
10. Do you show the same courtesy that you would like to have shown to you?

1940 WILLYS CARS ATTRACT BIG CROWD AT FIRST SHOWING

New Willys Features Beauty And Comfort at Lowest Prices

Refinements and beauty of the new Willys cars for 1940 attracted over 11,000 people to the Willys exhibit in one day to inspect the new models at the Canadian National Exhibition motor show.

Executives of Willys of Canada Ltd. and Willys-Overland Motors Inc. who visited this display expressed particular satisfaction with the great public interest in the new cars. They were Joseph W. Fraser, president of both companies, who attended the C. N. E. display accompanied by Delmar G. Roos, vice-president in charge of engineering, Ralph J. Archer, vice-president of Willys of Canada, and A. F. Jenkins, sales manager of Willys of Canada.

They pointed out that the Willys car, with all its new improvements, is the lowest priced full size car in the world.

The improved cars in the Willys line include a four door sedan, a coupe and a station wagon in both the Speed way and Deluxe models. The new cars reflect the careful planning achieved by a combination of the experience of Mr. Fraser and Mr. Roos, both veterans of many years of activity in the automobile business.

An astronomer says that the earth is traveling 180 miles a second on a journey it will need 307,000,000 years to complete. It will have to do much better than that if it wants to leave its troubles behind.

War and Wheat Situation

Wheat is an important commodity in Europe in war time. Most European war have started just after the harvest was gathered. It would be most injudicious to start any trouble with the crops still in the field, as food supplies would be sure to run short.

The European wheat crop this year will probably be around 150 million bushels less than the 1,928 million record harvest of 1908. At the same time most European countries have stored up reserves against the possibility of war. Germany in particular has a substantial war reserve of wheat.

The German wheat crop last year totalled approximately 205 million bushels. This year the output will be around 185 million. With careful rationing the crop together with the reserve supplies and imports obtainable from Hungary, will be sufficient to carry the German nation for at least a year.

The Italian crop this is officially estimated at 294 million bushels, as compared with 297 million last year. Many authorities are suspicious of the official Italian wheat estimate. For the past three years it has been about the same figure, which happens to be approximately the domestic requirements of Italy. In spite of that fact each year there have been substantial imports.

France has abundant supplies of wheat, last year's crop being 358 million bushels and affording a substantial carryover. This year's crop will likely be around 375 million, sufficient for home requirements.

The British crop in 1938 was 69 million bushels, and this year will be around 56 million. The British of course have to import very substantial quantities of wheat. Just recently it was announced that the United Kingdom government bought five million bushels from the Canadian Wheat Board.

Europe seems fairly well supplied with wheat for a short war at least. —Wheat Pool Budget.

What Air Waves Are Saying Over C J C A

THINGS IN COMMON

The 1st Annual Boy Scouts meeting, held at Camp Woods at Sylvan Lake, was admittedly a huge success. One of the outstanding things about the rally was a brief visit by Sir Percy Everett of London, England. Sir Percy has been active in scout circles for over thirty-one years, having attended the first Scout meeting inaugurated by Lord Baden Powell.

These facts were covered as C J C A's senior announcer, Ed Bryant, held an informal interview with Sir Percy, after his return from Camp Woods. The interview had hardly been in progress more than three minutes before Sir Percy remarked how fond he was of flying. The mere mention of flying aroused an enthusiastic response from Ed Bryant. Ed was very interested in Sir Percy's story about his trip from Winnipeg to Vancouver by plane.

The interview was one of the most interesting yours truly has listened to for some time. Sir Percy remarked that he thought war was very unlikely, for the time-being at least.

Sir Percy's stay in Canada is going to be quite brief. His impressions of Canada are very complimentary. The Canadian Air force has kindly consented to supply Sir Percy with one of their machines, for the remainder of his stay.

"If any Canadian women think for one minute they need not be concerned because forces are at work all over the world to destroy the democratic system of government, all they need to do is to read about what is happening to women in those lands which are under the rule of dictators."—Senator Iva Fallis.

"There is considerable difference in farm and industrial life in Canada during the last fifty years and today there is no hope of the average man becoming an employer."—J. S. Woodworth, M.P.

"Christianity and democracy are face to face with a religion of force, the doctrine that might is right, a religion of atheistic humanitarianism, a man made social and economic program which places the States, not God, supreme."—Rev. Rt. John Lyons.

"My compatriots want to defend Canada, our religion, our liberties and our institutions, but they are opposed to compulsory participation of Canada in world wars."—Senator Eugene Paquet.

CANADA WILL "BE THERE." (Edmonton Bulletin.)

If Canada is not at war it soon will be. The legal point as to whether "Canada is at war when Britain is at war" is in this instance purely academic. Parliament meets on Thursday and there is no manner of doubt what its decision will be or should be. In what way Canada is to participate is a question to be decided in consultation with Great Britain and her allies. How and to what extent we shall have to participate only time and the fortunes of war can tell. But that parliament will decide to participate is certain, and in so deciding it will have the overwhelming support of the Canadian people.

There is no people on earth to whom war is more abhorrent than to Canadians. No country has shown its desire for peace more convincingly by consistent refusal to arm itself. We are by inclination and location peaceful in our aims and dealings. But there are things Canadians value more highly than exemption from the unwelcome duty of helping to defend themselves and the way of life in which they believe.

All that is implied in "free government" is challenged by totalitarianism; and will go down in Canada as elsewhere should Hitlerism not be halted. For that reason, and not because of any legal interpretation of Canada's constitutional duty alone, Canada will "be there."

THE TWILIGHT OF 'THE SYSTEM.' (Calgary Albertan.)

If there is only one thing certain about this war it is that the nations will emerge from it bankrupt beyond redemption. The Capitalist system will be sunk so low that all the King's horses and all the King's men will never be able to raise it.

But out of the ruins of the old economic system a new one will arise, and it may be that this will be the blessing that hides behind the tragedy of war.

The Government of Canada took prompt steps to check profiteering in foodstuffs. It was not a precautionary move on the Government's part. We do not have to go any further than Calgary to see examples of already rising prices in respect to certain commodities.

A system which permits of making capital out of a nation's tragedy does not deserve to survive, and it would be difficult for penalties meted out to those profiting by it to be too severe.

home market for
the products of the
west and the
benefits of trade
to the rest of the
country.

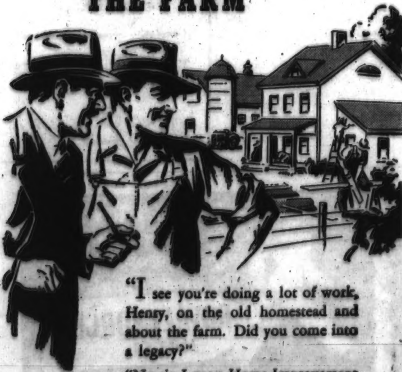

Winnipeg lies in the middle of the North American Continent; midway between the Arctic and the Gulf of Mexico, and the Atlantic and Pacific Oceans. Four great railways converge upon her, as did the historic roads leading to Rome. Her immense railway yards cover miles of tracks and sheds. Manitoba has been always before the eyes of the world—first as a romantic frontier, then as the possessor of fabulous wealth, then as the home of an industrious population that wrested from the soil, the lakes, the forests, and the mines, an immense annual income. In 1936 she produced \$234,000,000 in her varied activities: agriculture, mining, forestry, trapping, fisheries (don't forget her Lake Winnipeg that measures 8,500 square miles), exporting a million and a half tons of these various commodities, which include pulpwood, dressed beef, and newspaper, to home and foreign markets. An amazing record! She has 80,000 registrations for motor vehicles and machines of all kinds, and 35,000 miles of highways and roads, of which she is surfacing additional miles every year. Tourists in motor cars and by train are coming in increasing numbers to see for themselves this great country. Visit her yards. See wheat, all other grains, cattle (alive and as dressed beef), pulpwood, newspaper—many other products for which hungry mouths of men and machinery wait in the industrialized East. See the tons of British Columbia fruit and salmon being unloaded for Manitoba's own consumption. Thus, the sale of Manitoba's products allows her to purchase those of sister provinces. Ask for Facts and Figures concerning the Automotive Industries and the work they are doing in Canada, and we will send them.

BUILDING
CANADIAN MOTOR CARS
is a National Enterprise

Today there are approximately 1,500,000 cars and trucks in Canada. Beyond them are cars, trucks, and other motor vehicles of the United States, Great Britain, France, Germany, Italy, Japan, and other foreign countries. While these are the products of other countries, the actual work of building them is done in Canada. The production of raw materials throughout the Dominion and the assembly of these materials into motor cars and trucks is a national enterprise. The automotive industry is a national industry. When you buy a Canadian-built car, you help your own Province.

FROM ANIMAL TO MAN

A correspondent writes to enquire if there is any danger in the use of flesh of animals admittedly suffering from cancer and if so would cooking the meat remove the danger.

There is no possibility of the transferring of cancer from animals such as cattle to man. Cancer is not transmissible even by transplantation from one mammalian species to another. One would not knowingly choose such food as the flesh of a cancerous animal but there would be no danger of contracting cancer from its use. Human cancer is not an infectious or contagious process like tuberculosis or actinomycosis (lump jaw). The affection is not due to germs or bacteria. Cancer is a process of rapid division of the cells of the part due to many causes which lower the health and vigor of the tissues. There is no danger in handling a cancer, or of living in close contact with a cancer patient. —J.W.S. McCullough, M.D., D.P.H., of The Health League of Canada.

"The British Navy has been the first line of defense of Canada for over a hundred years and it is still the first line, although we do not contribute one dollar to it."—A. J. Brooks.

"The free democracies have the highest standard of living in the world today."—Hon. C. D. Howe.

IF WE KNEW

If we really knew the fellow
That we talk about so much,
Then the hardest heart would mellow
With a little kinder touch.
We would speak about his error,
Should a fellow chance to fail;
We would talk a little fairer,
Or we wouldn't talk at all.

But we add a lot of rumor,
To a little bit of fact,
And the ultimate consumer
Adds whatever we have lacked.
Yes, we add a little to it,
For we nearly always can,
But I doubt if we would do it,
If we really knew the man.

If we really knew another
As ourselves we really know,
When man criticized a brother,
We would say it wasn't so.
For a lie a mile a minute
Often traveled, often grew,
But there may be nothing to it,
If the man we really knew.

When the jealous bring a story,
When the little rumors start
That may dim another's glory
Or may break another's heart,
Then we carelessly receive them,
Never question, never scan,
But we never would believe them,
If we really knew the man.

World of Sport

By H. R. C.

The Davis Cup, emblematic of world championship in tennis, will take a long journey back to Australia. How the racquet wielders from the land of the kangaroo managed to win from the U.S. representatives amazed the world. In the first two matches Quist and Bromwich both lost in singles to Parker and Riggs. All that was needed was one more win for the Americans and the big battered silver mug would stay in Uncle Sam's domain. But those Australians had been told they would win this year. So they concluded to do just that. And somehow they managed to win in doubles and both the singles which followed, Quist beating Riggs and Bromwich taking Parker into camp. It was a glorious victory for the antipodeans.

Albert Worsley, Medicine Hat, has proven for the third successive year that he knows more about rolling a lawn bowl than any other man in Alberta. In the finals of the competition he was up against Archie Stewart of Edmonton, but emerged the winner in a very close score. This summer game of "curling" is productive of very exciting episodes. By reason of a weight placed in one spot of the wooden ball, it is possible to effect a curl in the final three or four feet of the shot that requires plenty of skill. A perfect lawn is needed, just as a perfect sheet of ice makes curling a real game.

Somehow the Edmonton Eskimos managed to win a game of rugby. Recalling their list of losses of last season we are quite surprised to find the result of the Labor Day contest with the Calgary Bronks, ended in favor of the northern boys. Joe Clarke must have been in his glory to see such a crowd out on the athletic field named after him, and the teams playing under glorious flood lights. Edmonton may well feel proud over this superior football ground.

The World of Wheat

H. G. L. Strange
Director "Crop Testing Plan"

Crop Testing Plan meetings, recently held at 94 different points over the Prairies, reveal that farmers are eagerly seeking advice about the variety of wheat to use.

"Should we grow Thatcher, Renou, Apex or Regent," they ask, "and are these rust-resistant sorts suitable for Alberta?"

The advice given by plant breeders was: "Use only a rust resistant variety in rust areas of Manitoba and Saskatchewan. Any one of these varieties, either Thatcher, Renou, Apex or Regent will be found to be more satisfactory. Naturally one of these varieties will eventually be found to be more suitable than the others in certain districts but it will take several years of further testing by farmers themselves before this can accurately be determined."

In Alberta and parts of Western Saskatchewan, ordinarily out of the rust area, a farmer would be wise to consult with his Provincial Department of Agriculture or with his University.

One other piece of advice was given. If a farmer decides to use a rust-resistant variety he should certainly purchase some new seed each year for the reason that each year these new varieties are being improved by plant breeders and seed growers.

CANADIAN NATIONAL

Viking Items.

Threshing has commenced in all parts of the district and some good yields are reported. Hauling of grain to the elevators has slackened down to some extent, waiting no doubt to see what the price may be. Good harvest weather prevails. The potato crop will be small in this district on account of the drought during the growing season. Vegetables and garden stuff also suffered accordingly. Poultry has done well, egg production being on a par with last year. Cream deliveries fell off earlier this season as pastures and source of water dried up. The hay crop will be less and feed is bound to be shorter. The yield of course grains is not as yet estimated but will not come up to the average it is reported.

In celebration of the 76th birthday anniversary of Mr. W. J. Jones of Long Beach, California, a birthday party was held at the home of Mr. and Mrs. Evan Jones on Sunday afternoon. "Deacon" Jones formerly resided in this district and was one of the early settlers northeast of town where he and his three sons, Percy, Steve and Evan, took up homesteads. In attendance at the happy gathering were Mr. and Mrs. Percy Jones and children from Irma. Mr. and Mrs. W. J. Jones have resided in California for the past number of years. "Grandma" Jones was unable to be present.

Miss Ardis Wood of McLeod has been a guest the past week at the home of her sister, Mrs. H. Rollans. Miss Wood was formerly matron at the hospital before taking a similar position at McLeod.

Frank Finn left on Monday for Wilcox, Sask., where he will take up studies at the Notre Dame College. Quite a number of his young school friends were at the station to bid him farewell and good luck.

Miss Maxine Darrah has returned to Wainwright to resume her teaching on the high school staff.

Monday, Labor Day, was observed as a holiday by the bank staff. Stores did business as usual.

Grain prices have advanced each day since war was declared in Europe.

Mr. and Mrs. Geo. Hopkins recently moved into the former McLeod residence which they have purchased.

Mr. Robt. W. Darrah, who has been visiting his parents for several weeks, has returned to Nacmire where he is principal of the school.

Several schools in the Holden School Division are being supplied with Black Diamond coal by the Alberta Lumber Co. in Viking.

The annual Viking school fair will be held on Saturday, September 9th. We understand that the exhibits will be on display in the Elks hall.

On Monday morning, September 4 at 10 a.m. St. Mary's Church was the scene of a very pretty wedding when Miss Lucy Hysmith Gallagher, daughter of Mr. and Mrs. Daniel Gallagher, Viking, was united in marriage to Mr. Joseph Charles Justik, son of Mr. and Mrs. Victor Justik, Kilmarnock. Rev. Fr. O'Neill performed the ceremony.

The bride, who was born in this district, has been engaged for the past number of years in the teaching profession. She enters upon her married life with the best wishes of a host of friends. Mr. Justik is a medical student at the University of Alberta and is well known both here and in Kilmarnock district. Miss Christine Justik, sister of the groom was bridesmaid with John Kelly acting as best man.

A wedding breakfast at which the immediate relatives of the bride and groom were present, was held in the Viking Hotel.

It is our sincere wish that Mr. and Mrs. Justik enjoy every blessing and success throughout their married life.

Dr. M. Yochanin of Edmonton is assisting Dr. Haworth for a couple of months in his medical practice here. N. P. Raahbroek of the News staff spent the weekend visiting at Unity, Sask.

To Mr. and Mrs. Geo. Whitts of Kinsella, on September 8th, a daughter.

A meeting of the Boy Scouts will be held on Tuesday, September 12th, at 7:30 p.m. sharp. All Scouts are requested to be present.

A six months suspended sentence was imposed on a juvenile in a Calgary court this week for illegal trapping of muskrats. The complaint was laid by them Kjar, game inspector, formerly of Viking.

HOUSEHOLD QUESTIONS

Oil Up—Don't forget to oil your vacuum cleaner and electric washer. Oiling keeps them in good condition, and they wear longer.

When Making Blueberry Pie—Mix one teaspoon of ground nutmeg with two tablespoons of flour and sprinkle the mixture on the berries, then add sugar.

REMNANTS

Do you need a small piece of goods for a dress or an apron. Look over these remnants. Short ends of this season's prints, voiles, flannelette, etc., All at money saving values.

"Want to say it with flowers, eh? About three dozen roses say?" suggested a florist at Edmonton to a local young fellow. "How about six roses?" the young fellow replied, "I don't want to say too much".

A local fellow sends in the following poem and asks that it be published this week:
"I always wondered if
My Viking girl could
Keep a secret, and
Now I know she can
For we were engaged
several weeks—
Before I knew it".

At 10 he pressed her hand.
At 15 he pressed his love.
At 20 he pressed her lips.
At 25 he was pressed for money.
At 30 he did his own pressing.

POPULAR FICTION

"Easy payments"
"Your money cheerfully refunded"
"I get 25 miles to the gallon."
"In ten easy lessons."
"You can be the man."
"Power of will."
"Pre-war stuff."
"And they lived happily ever afterwards."
"5000 a week in your spare time".

Women get better acquainted with themselves than men do, according to a statistician. He reports that the average woman spends three-quarters of an hour a day in front of the mirror. This amounts to a total of 12 days a year. So during the years between sixteen and sixty, a lady has spent nearly a year and a half looking at herself in the glass. That's a long look.

Conversation Made Easy—Keep the centre of the room free from furniture. This makes for easy conversation across the room.

LOCALS

A dance will be held in Hedley's hall every Saturday evening until midnight, commencing September 8th. Good music.

Your own drug store carries a full line of school supplies and text books.

Miss Elsie Rose of Viking visited with Mrs. Chase the past week.

BORN—To Mr. and Mrs. Thos. Askin at the Wainwright Hospital on September 5th, a son.

A. E. Peterson and sons are putting in the basement for Mrs. Clellan's house.

Mrs. W. Masson and children spent last week with Mrs. Masson's mother at Viking.

Mrs. J. Marshall has accepted a position as housekeeper at the Latimer home.

Mr. Ben McGuire left for Edmonton the first of this week to attend Technical School.

Get your school supplies and text books at your own drug store.

Mr. and Mrs. Elias Miles are here for the harvesting and threshing season.

Now we have a brand new war to take our attention. The World War of 1914-18 is now classed as old.

Mr. Roy Findlay of Ryley, Alta., arrived in Irma last Tuesday evening to help at the Pool elevator during the rush season.

Every day we see Great War vets discussing the pros and cons of the present conflict, and recalling many experiences, amusing and otherwise, of the past war.

Some pretty good yields of wheat have been reported from different parts of the district and grading No. 1 and 2 Northern. Ideal threshing weather has prevailed so far this fall.

Irma schools opened last Monday with a large attendance and the prospect of an increase, particularly in the high school after threshing is finished.

Mrs. G. A. Tripp arrived home on Monday, September 4th for a few months stay. Mrs. Tripp expects to spend the winter months in Edmonton.

Bring your spare second hand text books to the Irma Drug Store.

Mrs. M. Holt has taken up residence in one of the Wyatt houses and is teaching at Sunny Brae. Her sister, Miss McGrath, is teaching at Strawberry Plains.

Mr. and Mrs. J. Enger and daughter, Dorothy, of Kinella, also Mr. and Mrs. E. Enger and children Roy and Janet of Entwistle were visitors last Sunday with relatives and friends of the Crescent Hill district.

Treasury branch agents have been appointed government insurance agents throughout the province. Call in and take out a government fire insurance policy through the local agent, E. W. Carter and keep your insurance money in your own province.

Truck license fees are being reduced forty per cent on Sept. 1st. Car license fees will be reduced the same amount on October 1st. Grain hauling permits can now be obtained by holders of Class D or farm truck licenses.

A small want-ad brings results. Try it when you have something to sell, trade or swap that somebody else wants.

The regular meeting of the Irma Ladies Aid will be held at the home of Mrs. Arnold on Thursday afternoon, September 14, at 3 p.m. Please note the change of meeting place. All members and friends are cordially invited.

Murray McKillop and Gordon Berg who motored from Detroit, Michigan, to visit Murray's aunt, Mrs. Mildred Chase, and cousin Marjorie, left on Thursday to visit Banff and the Yellowstone Park before returning home to Detroit.

Mr. and Mrs. Murray Hamilton of Edmonton and Mr. and Mrs. Jim Hamilton and children of Medicine Hat motored down on Thursday, Aug. 31st, for the funeral of the late John McCordie. After the funeral service they, with Mr. and Mrs. Earle Prior, were guests at the home of Mrs. Allen Murray and Mrs. Hamilton left in the evening for Edmonton, while Jim and Mrs. Hamilton stayed over for a visit with Mrs. Hamilton's mother and brother, Mrs. Stougaard and Julius, in the Crescent Hill district.

L. T. L.

The last L.T.L. meeting of August, when Annie Kurek's birthday was observed, was held at the Kurek home.

A new song, "Altogether" and devotionals opened the meeting. The story for the day evidenced the mental and physical collapse of a boy who had begun smoking cigarettes at the age of five.

A lesson was given from photographs of several jars of cress seed which had been planted in water and which had developed in converse ratio to the amount of alcohol added to the water.

Games were played and refreshments served.

At the first September meeting new officers were elected for the quarter: President, Mary Kusiek; vice-pres., Hazel Wyand; secretary, Luella Van; treasurer, Joyce Foxwell.

Another lesson was given from photographs. This time illustrating the proportions of food value water in grapes and grape juice until fermentation, and then the lessened percent of food value and the development of from 5 to 20 per cent. poison. The lesson also included a story which showed that even a toad could not function if given nicotine. An outdoor game was played and a few amusing recitations were given by the leader.

The next meeting will be held on September 15th at 4 p.m.

"I suggest that the government adopt openly a policy of co-operation with both the United States and Great Britain in defense matters and I say that the government should announce that policy to the Canadian people."—Howard Green, M.P.

"The Statute of Westminster has given Canada the right of self determination in regard to her foreign policy."—Ligouri Lacombe, K.C.

"In so many fields there is a call for the direction of intelligent men and women of Canada, in public health, education, slum clearance and town planning, the scientific improvement of grass lands, the creation of local industries of all sorts."—Dr. Carleton Stanley.
